Using DCIMap to Search and Display Drainage District Information by Parcel

March 18, 2020

Click on link for DCiMap - https://dcimapapps.countyofdane.com/dcmapviewer/

1. Click “Ok” on DCIMap Disclaimer

2. Click “Map Layers” folder icon button (top menu bar on right)

3. Scroll down and check the box next to Drainage Districts (under Boundaries and Districts)
4. Enter address or parcel identification number in search box on top left of screen and click the search button

5. Click on “Zoom to” in search result
6. Click anywhere on the desired parcel to highlight and identify parcel information (visually identifies overlapping of parcel highlighting and drainage district highlighting)

7. Keep pop-up menu window open (can drag the pop-up window if needed)
   a. Click “Zoom to” in the pop-up window to view the parcel boundaries (green line)
   b. Can zoom in or out to view a different scale of the property and/or drainage district
