

Using DCiMap to Search and Display Drainage District Information by Parcel

September 22, 2016

Click on link for DCiMap - <https://dcimapapps.countyofdane.com/dcmapviewer/>

1. Click “Map Contents” folder icon button (top menu bar)
 - a. Scroll and check the box next to Drainage Districts
 - b. Close the pop-up menu window
2. Click “Identify” icon button (top menu bar)
3. Click anywhere on the desired parcel to highlight and identify parcel information
(visually identifies overlapping of parcel highlighting and drainage district highlighting)
4. Keep pop-up menu window open (can drag the pop-up window if needed)
 - a. Click “Zoom to” in the pop-up window to view the parcel boundaries
 - b. Can zoom in or out to view a different scale of the property and/or drainage district
